

Ed Boyer called 9/28/90

Denise & he would prefer to hit China without using amended claims (per Taiwan). I think they should probably discuss with Antony to explain his reasoning.

Two questions

2020050204

wait do we request examination in China now or wait (have until Dec. of 1991) - ~~we~~ could wait and see how we fare in the EPO & elsewhere

original claims 2) do we start with the ~~amended~~ amended claims or fresh - (Ed says the Taiwan claims are similar to what we have in the US)

Call Ed - wait, but as things stand now, no amendments
